

Are We Crazy About Our Kids?

The Raising of America

EARLY CHILDHOOD AND THE FUTURE OF OUR NATION

An upcoming documentary brought to you by Rocky Mountain Public Broadcasting System

Investing in high-quality early care and education pays for itself in many ways and many times over. This episode brings to life the classic economic studies of Perry Preschool and other initiatives conducted by Nobel laureate James Heckman, Arthur Rolnick and others which illustrate how we can either invest early for success or pay more for failure later. So, what is holding us back? Join us to watch the film and engage in a conversation with a panel of local experts.
